Parts of a Cell

Part	Job	Think of it as...
Nucleus	Holds **DNA** and controls the cell	*the brain*
Cell membrane	Controls what goes **in and out**	*the security guard*
Mitochondria	Turns food into **energy**	*the power plant*
Ribosomes	Make **proteins**	*the factory workers*
Cytoplasm	Gel that **holds** the parts	*the floor of the factory*
Cell wall (plants)	Rigid **support**	*the fence*
Chloroplast (plants)	Makes food from **sunlight**	*the solar panel*
