Perspective

How someone sees and feels about what happens

1. **Who is it?**
   Name the character or the author
2. **What do they think or feel?**
   Look at their words, actions and thoughts
3. **Why?**
   Their experiences and what they want shape how they see it
4. **Compare**
   Would someone else see it a different way?

Point of view is who tells the story. Perspective is how they feel about it.
