The Scientific Method

1. **Ask a Question**
   What do you wonder about?

▼

2. **Research**
   Find out what is already known

▼

3. **Hypothesis**
   A testable prediction: "If ____, then ____."

▼

4. **Experiment**
   Test it. Change only one variable.

▼

5. **Analyze Data**
   Organize results in tables and graphs

▼

6. **Conclusion**
   Was your hypothesis supported? Share it!
